RE: Docket No FD35952

Dear Mr. Navecky,

Please, sir, help to save our farm land. It is one commodity that cannot be reproduced in a factory or warehouse. It was produced only by God many many years ago, and we have been trusted with the care of it, not with the destruction.

Please do not approve the GLB Railroad proposed for Wisconsin, Illinois, & Indiana. It would be helpful for a few people in Chicago, but would destroy irreplaceable land. In theory, it is only a few feet, but in reality that is destroying farms when you cut right through the farm. If you have never been out on a farm, please feel free to come to Mazon Illinois. There are several farmers here who could take you for a tractor ride to see what this railroad would destroy.

Again, I ask you to please do not approve the above mentioned privately owned railroad.

Thank you.

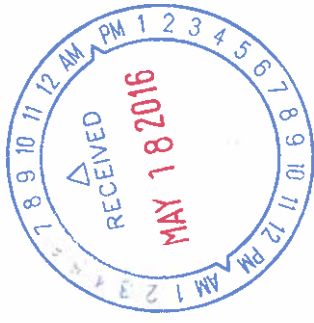

Sincerely,

A handwritten signature in cursive script that reads "Kay Johnson".
